

Declaration of consent to the receipt of electronic invoices

Dear Interzero Repasack Partner,

Following the entry into force of the German Tax Simplification Act 2011, electronic invoices are equal to paper invoices as of 01.07.2011.

As an environmentally oriented company, we would also like to take advantage of this simplification and now offer you the option of receiving your invoices, credit notes and reminders by email as PDF attachments.

Together with you, we are pleased to make a further valuable contribution to protect the environment and reduce the amount of paper.
