

GERMAN PACKAGING ACT?!

SELF-CHECK: WHAT CHANGES FOR YOU FROM 1 JULY 2022

Those who place packaging into circulation which subsequently finds its way to end consumers are responsible for licensing this packaging in a dual system. This is the intention of the German Packaging Act, which was amended in 2021. This amendment came into effect in July 2022, resulting in changes especially in e-commerce. Do the check: how will you be affected – and how can Lizenzero help you?

Are you uncertain of how you can fulfil the requirements of the amendment to the German Packaging Act, or do you need support? Then please contact Claudia Wegener.

Marketplace operator

Do all of your retailers who ship to Germany participate in the dual system?

No/don't know

Since July 2022, platform operators and fulfilment service providers have the following duty of control: they are required to obtain proof from their retailers that the retailers are fulfilling their obligations according to the German Packaging Act. Otherwise, they face penalties of up to €100,000.

Further information on the above duties of control is available on our blog:

Yes

Very good, then you are aware of your duty of control. Exactly how you comply with this is up to you. We can help you to set up a good control system. Contact our expert.

BLOG!

Fulfilment service provider

Have you previously licensed mail-order packaging for your retailers?

Yes

Great! Since July, your retailers are required to manage the licensing themselves. Now think about how you can provide your customers with the information that they require for the licensing of their packaging.

Find a good solution with us, and stay up to date:

No/don't know

What you have to do now !

Check whether any obligations from recent years are still outstanding. You are welcome to contact our expert.

B2C retailer

Can you prove that all of the sales packaging that you bring into circulation is licensed?

Yes

You are well prepared. Have your proof at the ready (LUCID number and system proof). Marketplace operators and fulfilment service providers will ask about this.

As a customer of Lizenzero, you can download the system verification easily in your customer account.

No

Since July 2022, you must be able to prove that you are fulfilling your obligations – otherwise you face a ban on distribution, at least through marketplaces and fulfilment.

What you have to do now !

Determine your packaging quantities, and licence them directly on our website.

Intermediary

Have you already decided for the best system partner (dual system)?

Don't know

Discuss any questions you may have directly with our expert, and contact Lizenzero.

Yes

Very good. Maybe you will be able to benefit from our interface solution in the future.

No

Then we have something for you: with our interface, you save time and resources, and prevent errors. That means less work and greater security for you – and your customers.
