On request the material can be delivered in various color gradations.

All figures shown in the table are representative and should not be used for establishing specifications.

The manufacturing process for this material is EuCertPlast certified. The material complies with the requirements for the 'Blauer Engel' ecolabel.

Processing Notes

procyclen® PP 10 M10 C09

| | Parameter | Recomended Value | Unit |
|-----------------------|--------------------|--|------|
| Injection Moulding | Injection Pressure | 800-1400 | bar |
| | Hold Pressure | Minimum (70-80% of injection pressure) | |
| | Melt Temperature | 200-240 | °C |

Note: The listed processing parameters are general guidelines based on our current knowledge and experience. The suitability of the data for a specific processing method can only be ensured with investigations and tests by the end user.
